

Pallet Trucks

T14 – T20

Capacity 1.4 t, 1.6 t, 1.8 t and 2.0 t | Series 1155

Compact Transport Helper

- Compact design for easy and fast maneuvering in confined spaces
- Easy steering and operation for relief during physically demanding tasks
- Robust chassis and reinforced forks for transporting loads up to two tons
- T14 and T16 models specially designed for operations in confined spaces, e.g., delivering goods by truck in urban areas

CHARACTERISTICS

Long tiller and low mounted chassis

Safety

- Safety distance due to long tiller for effective accident protection
- Smart bumper and low chassis to prevent foot injuries
- Automatic electromagnetic brake and belly switch for reduced accident risk
- Automatic parking brake for firm footing on loading ramps or inclines

Shaped tiller head with intuitive controls

Ergonomics

- Intuitive controls that can be operated with both hands
- Ergonomically shaped tiller head
- Multifunction display for overview of all important vehicle information
- Multiple storage areas for clip boards, foil rolls or scanners

Compact chassis

Handling

- Compact chassis and small turning circle for optimum maneuverability in tight spaces
- Creep speed option for precise handling in tight spaces
- Booster function for short-term increase in power
- Optional compact Li-ION battery (for T14 and T16) for even more maneuverability

Easy access to internal components

Service

- Robust AC motor for long maintenance intervals and lower operating costs
- Low-wear components for long service life and high availability
- Easy-to-reach service components for uncomplicated maintenance
- CAN bus architecture for easy access to all vehicle data
- Optional data transmission unit for remote diagnostics and software updates
